## PROFESSIONAL SUMMARY

Dubai-based Front-End Developer with 3+ years of experience delivering scalable, high-performance, and accessible web applications using React, Vue.js, Next.js, and Nuxt.js. Proven ability to build full-scale applications, from million-user CRM platforms and e-commerce sites to data-driven admin panels. Adept at creating reusable components, integrating GraphQL/REST APIs, and ensuring pixel-perfect UIs with Tailwind CSS and Framer Motion. Skilled in Agile development and available for immediate joining.

## EXPERIENCE

### Armino Technologies

September 2023 – Present

#### Front-End Developer

- Developed and maintained high-performance CRM platforms serving 1M+ users, ensuring scalability, smooth performance, and modern UI consistency.
- Built and deployed eCommerce applications, admin dashboards, and landing pages featuring live charts, statistics, and dynamic data visualization.
- Engineered modular front-end systems using Vue 3, React.js, and Next.js with TypeScript and GraphQL (Apollo Client) for efficient, type-safe data binding.
- Implemented multi-language support using the i18n plugin, enabling seamless localization and improving user reach across multiple regions.
- Designed responsive, accessible UIs with Tailwind CSS, Vuetify, PrimeVue, Chakra UI, and Material UI, ensuring visual and functional consistency.
- Integrated GraphQL and REST APIs using Axios and Apollo Client, with optimized caching, pagination, and error handling.
- Enhanced page speed and SEO performance, reducing LCP by 40% through dynamic imports, lazy loading, and code-splitting.
- Conducted unit and integration testing using Jest, Vue Test Utils, and React Testing Library to ensure reliability and maintainability.
